

SHIPBUILDING IN U. S. RECOVERS

Seagoing Tonnage, After A Decline Caused by Armistice, Increases.

Washington, D. C., April 3.—American shipbuilding has recovered largely from temporary decline caused by the armistice in November.

The first quarter of this year, it was announced today, the bureau of navigation officially numbered 118 steel seagoing vessels and 191 wood ships, making a total seagoing tonnage for three months of \$22,935,000 tons, or at the rate of more than 2,000,000 tons a year. The non-seagoing vessels numbered 210, with a tonnage of 27,658.

Total Record In November. Steadily increasing in the numbers reported by the bureau was seen in the three months of the quarter, 225,716 tons being numbered in January, 214,731 in February and 234,141 in March. The best record ever made was last November, when 245,000 tons were numbered.

During the 12 months ended March 31, a total of 2,955 merchant vessels of 2,258,421 gross tons, including a small tonnage for foreign owners, were built in the United States and officially numbered.

ALMOST DIED FROM STOMACH TROUBLE

Mr. Campbell lost 65 pounds; Regained it, and tells how he got well.

"Before I started taking Mils' Emulsion the doctor told me it wasn't any use, for I was going to die. But if you could see me now, you wouldn't think that there had ever been anything the matter with me. I was in bed flat on my back, when I commenced taking Mils' Emulsion. I had lost 65 pounds. I have regained my health and strength. I don't look like the same man I did three years ago. I wish you could see what it has done for me and my family."

—Dr. R. Campbell, Carter, Ohio. Thousands of people who "had to be careful with their diet" or "had to be cautious" have found Mils' Emulsion the one thing they needed for quick relief and lasting benefit. It is guaranteed to make you eat, to give you strength and a corrective medicine. It restores health, natural bowel action, doing away with all kinds of pills and physics. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of flesh and strength, Mils' Emulsion is strongly recommended to run-down nervous people, and it has produced amazing results in many cases of asthma, chronic bronchitis, and tuberculosis of the lungs. Chronic stomach trouble and constipation are promptly relieved—usually in one day.

This is the only solid emulsion made, and so palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Mils' Emulsion under this guarantee—Take six bottles with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and \$1.25 per bottle. The Mils' Emulsion Co., Terre Haute, Ind. Sold and guaranteed by all leading druggists.—Adv.

Grove's Tasteless Chill Tonic

Which is Simply IRON and QUININE Suspended in Syrup. So Pleasant Even Children Like It

The Quinine and Iron does not dissolve in the syrup and, therefore, does not make the syrup bitter. You do not taste the bitter Quinine and you do not taste the Iron because both are completely covered with syrup when swallowed.

GROVE'S TASTELESS CHILL TONIC is an Exceptionally Good, General Strengthening Tonic for the Child, the Mother or any of the Family, young or old. When you see how it improves the Appetite, Brings Color to the Cheeks and Restores Vitality and Energy, you will then realize its true tonic value. You can soon feel its Strengthening, Invigorating Effect. It is acceptable to the most delicate stomach and does not cause nervousness or ringing in the head. Very Pleasant to take. Price 60c.

Grand Jury Still Probes Breaking Of U. S. Statutes

Only 9 Out Of 40 Applicants Receive Citizenship Papers.

The federal grand jury was still in session Tuesday investigating violations of United States laws. Prominently mentioned in the court's charge were violations of neutrality laws, especially those affecting Mexico, such as the shipment of arms and munitions, and military expeditions against the organized government of countries with which the United States is at peace, violations of the counterfeiting laws, to probe any false affidavit that might have been made in connection with the smuggling and sale of liquor and to look carefully into the sending of obscene matter through the mails, either in letters or newspapers. The judge also asked the grand jury to investigate any stock selling schemes that might not appear to it to be honest.

Grand Jury. The grand jury is composed of George G. Franklin, foreman; J. E. Dean, Van Horn; E. T. Staecher, El Paso; H. M. Means, Van Horn; L. W. Hartsacker, El Paso; Guy Garrison, Van Horn; W. S. Morehead, El Paso; T. J. Roberts, Tularosa; S. J. Fennell, El Paso; J. C. Edwards, El Paso; John A. Pool, Jr., Valentine; Charles E. Gaskill, El Paso; W. C. Barnes, El Paso; Joe Zelman, El Paso; J. E. Casper, El Paso; John Strickland, El Paso; R. J. Buchanan, C. D. Humble, Clint; M. H. Jones, Marathon; C. F. Kimball, Alpine.

Out of a total of 40 petitions for naturalization, presented to the court, 21 were denied. Citizenship was granted on the petitions of the following nine applicants: H. A. Green, English; F. E. Hamilton, Mexican; H. D. Kelley, Canadian; Blago Caniano, Italian; G. F. Allen, English; A. E. Howlands, English; Trinidad Ortiz, Mexican; A. J. Froehman, Russian; D. J. Hennessy, Irish.

Six Men Rob Bank In Busy Business District Of Minneapolis, Minn.

Minneapolis, Minn., April 3.—Six men held up the People's State Bank at Seven Corners, a busy Minneapolis business district, shortly before 10 o'clock this morning and escaped with \$4500 cash and \$12,000 in Liberty bonds. Cashier A. E. Kolstad was locked in the vault.

RED CROSS PLANS TO STAMP OUT VENEREAL DISEASES

Cannes, France, April 3.—One of the most important sessions of the international Red Cross conference to be held during the meeting occurred Monday, when there was an informal discussion of venereal diseases. Experts who had been present at the meeting said that these diseases can be stamped out with comparative ease. The program which they expect to submit will be simple when carried out and will have a revolutionary effect, it was indicated.

GEORGIA'S EARLY PEACH CROP SERIOUSLY DAMAGED

Macon, Ga., April 3.—The Georgia early peach crop was seriously damaged by the cold weather of a week ago, according to reports received today from Fort Valley, Byron and Marshallville, the centers of the peach belt. Orchardists report that the fruit, although apparently unharmed on the outside, is decaying on the interior. The late peaches are not believed to have been affected.

CAPT. WASHINGTON WINE. London, Eng., April 3.—Capt. Watson M. Washington, of the American army, was his match in the first round of the covered courts tennis championship at the Queen's club today. He defeated Lieut. H. J. Gilbert by 3-6, 6-3, 6-2, 6-2.

MEDICATED ALCOHOL FATAL. St. Louis, Mo., April 3.—While in a state of delirium, Mrs. Anna Young, 29, suffering from pneumonia, drank four ounces of medicated alcohol, prescribed for external use only by a physician. She died half an hour later.

The end of an Imperfect Day

"Nervous Headache"

Nervous headache is the result of a run down weakened nervous system. You feel out of sorts—everything seems wrong—food disagrees with the tired stomach—you can't sleep and have a constant case of "the blues." See Gen. H. H. Johnson of New Cumberland, Pa., tells how he was cured after his nervous system gave up hope.

"Five or six years ago I became greatly worried on account of the condition of my nerves. I was exhausted and suffered so much I thought I would never be well again. I used one bottle of DR. MILES' NERVINE and began to improve from the first. I then used it until it completely cured me. It is without doubt the greatest nerve remedy ever discovered."

If you are troubled with a nervous affliction, you will find the first bottle of DR. MILES' NERVINE will bring relief. It is non-alcoholic and contains no injurious drugs—a safe, dependable and efficient family medicine. Ask your druggist about it.

DR. MILES' NERVINE

Their Medicine Chest For 20 Years

IT is characteristic of folks after they pass the allotted "three score years and ten" to look back over the days that are gone and thoughtfully live them over.

I find myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—that was then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxatives and cathartics on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user; which was due to the fact that they were not thorough enough in their action, some simply acting on the upper or small intestine, while others would act only on the lower or large intestine, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first tone the liver, cleanse the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild, but thorough elimination of the waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Dr. Miles' Nervine, which I truly believe goes further

HERE'S AN OIL INVESTMENT NOT A SPECULATION

Buy a Few of the Remaining Shares of Treasury Stock of Lone Star Refining Co.

WICHITA FALLS, TEXAS

An Established, Paying Concern

Within a few days, the directors of the Lone Star Refining Company expect to increase the capitalization of the company from \$200,000 to \$1,000,000 because of their growing business, and their desire to increase their trade territory for their refined products.

The company was organized in May, 1918, as a joint stock association in Wichita Falls, Texas. The articles creating it vest control of its affairs in a Board of Directors acting under a declaration of trust recorded in deed records of Wichita county, Texas, provide that the entire association assets shall be charged with payment of all its liabilities and exempt the directors and shareholders from personal liability for same.

It is a success—The company began operation with only three stills having a daily capacity of approximately five hundred barrels, this capacity was not increased until about the middle of October when the capacity was raised to 750 barrels, for the balance of the year the company operated with this capacity. Soon after the first of this year the capacity was increased and the company now has ten stills built in batteries of two and three that can handle approximately 2,500 barrels of oil per day.

Its system of distribution of refined products is efficiently conducted to prevent storage of refined oil, thereby curtailing overhead expense. Its business grew from \$60,000 the first month to more than \$160,000 a month for March, 1919. A DIVIDEND OF 10 PER CENT WAS PAID TO STOCKHOLDERS JANUARY 10, 1919, in addition to making expenditures on equipment that now amounts to more than \$500,000 in tangible assets. These figures are based on a report of A. E. Myles of Wichita Falls, Texas, a certified public accountant.

The stock was sold privately at \$100 par, and can now be bought for \$190 a share. Most of the sales have been made to the original stockholders, although the management of the company considers it is a good plan to interest men from the outside and thereby develop new business, new markets, for the refined products.

Because El Paso and the El Paso trade territory offers such a market, C. F. Johnson, secretary-treasurer of the company, came to El Paso to talk over this proposition to representative El Pasoans. The Lone Star Company wants to interest a number of live, progressive young men in the refining business, and help develop a distributing market. It wants only such men as are interested in the refining business from an investment standpoint. It is to such men that this advertisement is addressed.

Only 295 shares of the original 2,000 allotment remain in the treasury. These shares will be converted into the new corporation on a basis of two and one-half shares of the new stock for each one of the old. And the original company, that now has holdings valued in excess of \$50,000, is doing business now of a \$3,000,000 company. The new corporation with \$1,000,000 capital in a reasonably short time will grow into a permanent business, on the same business basis that has made the Magnolia company such a factor in the oil game.

The Lone Star Refining company has a decided advantage over many other similar companies in that production is assured for a long time to come. For instance, J. A. D. Smith, oil millionaire and president of the company, has one well bringing in 1,000 barrels a day, none of which has been turned over to the refinery because of the inability to take care of this additional volume under existing conditions. He and other stockholders have a big acreage in the proven field to take care of future production. The greatest obstacle to the refinery business—that there might be a shortage in the crude oil supply—is removed.

This company is not a promotion affair. Not a cent was expended in commissions in the organization of the company. All the stock was practically sold through the company's office through the individual efforts of the men who organized it. Both Smith and Johnson who are here now, are interested in the personnel of El Paso business men and it is their desire to interest the class of men above mentioned in their company more than it is to sell the remaining treasury stock. However, the stock will be sold before the stockholders' meeting which is called to form the new corporation.

PERSONNEL OF THE COMPANY

The general manager of the company is George A. Sonicker, a man who has been in the refining business for 22 years, and whose father was for 52 years in the refining business in Pennsylvania.

Mr. Johnson, secretary-treasurer of the company, and Mr. Sonicker became associated with the first refinery in the North Texas field at Iowa Park in 1914. It was the Wichita Valley Refining Company, and has proved successful. Mr. Johnson is thoroughly familiar with every detail of the refining business, and can show auditor's reports, references, and other data for the careful scrutiny of the most skeptical. He is in Room 125, Hotel Sheldon.

The directors and stockholders of the company expect to hold a meeting Saturday to form the new corporation. It therefore will be necessary for El Pasoans who are interested to see Mr. Johnson immediately. He leaves Friday for Wichita Falls. Call the Hotel Sheldon, make an appointment, and look into the proposition.
